

The Top 5 Roadblocks to Contact Center **Excellence**

Contents

Roadblock 1: Disparate Data.....	3
Roadblock 2: Delayed Access.....	4
Roadblock 3: Limited Visibility.....	5
Roadblock 4: Reactive Management.....	6
Roadblock 5: Detached Employees.....	7
CXone Performance Management.....	8-9

Roadblock 1: Disparate Data

Problem: Disparate Data

- Canned reports
- Manually exported data
- Lengthy Excel sheets & pivot tables

Solution: Data Aggregation

- Aggregate raw data (ACD/IVR, CRM, QM, WFM, LMS, and more)
- Intuitive dashboards allow you to personalize data, modules, and metrics
- One-stop-shop for all your reports in a customizable format

Roadblock 2: Delayed Access

Problem: Delayed Access

- Supervisors unable to solve problems in real-time
- Unmotivated agents unsure of current performance
- Reports a day too late

Solution: Real Time Access

- Real-time data can be viewed at every level of the organization
- Multi-slide wallboards show agents how they match-up in real-time
- Gamification allows you to give agents recognition in real-time

Roadblock 3: Limited Visibility

Problem: Limited Visibility

- Executives can't access all back-end metrics
- Agents unable to see their performance
- Supervisor's job involves too much guesswork

Solution: Enterprise-Wide Visibility

- Dashboard sharing and subscriptions allow enterprise uniformity
- Managers and agents have dashboards with information vital to performance
- Accountability for metrics can be generated from agent-to-agent, floor-to-floor, or sitewide
- Group agent characteristics and view performance based on those attributes

Roadblock 4: Reactive Management

Problem: Reactive Management

- Supervisors being reactive rather than proactive
- Agents quitting because of reactive management
- Unnecessary escalations

Solution: Behavioral Intelligence

- Course-correct agents through a series of integrated features that provide direct solutions to data-driven concerns
- Rules engine automatically fills a supervisor's task list with coaching sessions
- Comprehensive reports and tools document all coaching sessions and progress

Roadblock 5: Detached Employees

Problem: Detached Employees

- Unmotivated employees
- High turnover rate
- Low productivity rates

Solution: Prescriptive Analytics

- Give agents clear, trackable goals with immediate feedback
- Incentivize agents to meet KPI's with custom rewards in a digital Marketplace
- Automatically generate coaching sessions triggered by performance thresholds
